

UVC Light Technology

DAY SPAS AND SALONS

Day spas and salons need to protect staff and patrons from exposure to harmful pathogens like COVID, Influenza, Staph, SARS, MRSA and Norovirus. Shared spaces where bacteria and viruses thrive can be disinfected with UV lights, air disinfection units and mobile units. Your customers will appreciate the extra care you provide in giving them a chemical-free, 99.999% germ-free environment so they can enjoy their spa treatment.

UVC Disinfection Products

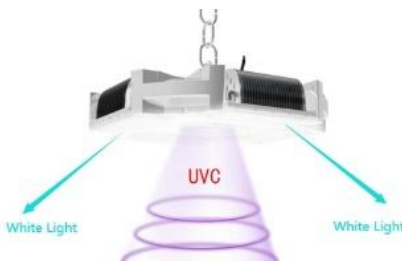

Air Disinfection Unit:

Recycles air in a 15x15 room 4 times/hour. Operates 24/7/356. Disinfects 4131 ft³/hour. Size: 51.18 x 9.84 x 12 in. 110 V.

Air Disinfection Unit with LED Light:

Recycles the air in a 10 x 10 room 4 times/hour. Operates 24/7/365. Disinfects 3000 ft³/hour. Size: 2 x 4 ft. 110 V.

Germicidal Light Fixtures:

Sanitize surfaces making them 99.99% germ-free. Motion sensors and timers make it safe to operate 24/7/365. Disinfects a 20 x 20 ft room with ceilings up to 20 ft high.
